PEONIES and IRIS

PETERSON NURSERY

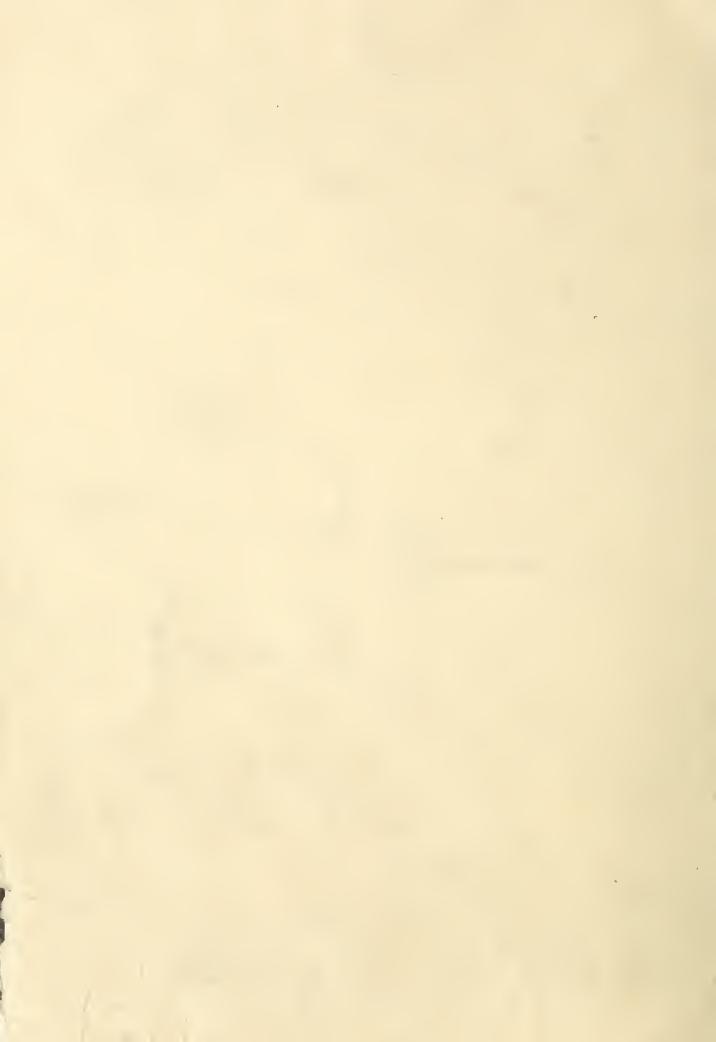

EXPERIENCE. As the pioneers in America of extensive growing and careful studying of the herbaceous peony, we present this selected list of the best sorts from every hybridizer of note.

VARIETIES. Connoisseurs will notice from our painstaking comparisons that the varieties retained are only those of the highest standard of excellence.

LOW PRICES. Our responsibility coupled with our unique guarantee, and large stock, make it possible to dispense with an expensive catalogue, thus reducing prices.

MOVING. When dormant in early fall peony roots can be shipped long distances and bloom well the following spring.

DISCOUNT. Any order of \$100.00 or more will be construed by us as being a wholesale purchase, and therefore entitled to the 25% discount.

GUARANTEE

in September, so that new rootlets may form before freezing down. This gives a great advantage to home-grown stock over imported plants, which invariably come too late. All are listed under colors in the order of their blooming and described as by the American Peony Society.

The prices in our list are for stock packed for shipment. We begin filling orders early in September.

FOR THIS FLAG

Our stock is guaranteed true to description and we will REPLACE WITH THREE any that prove not true. We can make this UNPARALLELED guarantee because of the extreme care we have always used in growing our stock. Any peony is much surer to bloom, and will be twenty per cent stronger, if moved

FOR THIS FLAG

The sizes given are: DIVIDED—Strong divided plants of two to four eyes; SMALL—Are plants of one or two stalks of this year's growth, one year since divided; MEDIUM—Plants of three to five stalks, two years since divided; LARGE—Plants of six or more stalks, three years since divided; EXTRA LARGE-Plants four years old since divided.

Will not supply less than six of one kind at the dozen rate or less than twenty-five of one kind at the hundred rate.

No orders taken for less than six of one kind in divided roots.

WHITE PEONIES

EARLY	Size	Each 12	100
